

REDZONE RACING SPORTS

Proposal Letter

REDZONE RACING SPORTS was established in November 30, 1997 at Chicago, IL. REDZONE has been growing to what we are today – a family of sixteen members who share the same passion for cars. This craze has led a great deal of enthusiasm for investing into what we enjoy, modifying cars. Although most of our team consists of Hondas, we appreciate other vehicles that share the same passion, whether they naturally aspirated or force inducted.

The first several years, REDZONE was naturally unrenowned in the import scene. However, we have gradually made our team known to the Midwest through participation in the events such as Hot Import Nights, Import Rev, Battle of the Imports, Drag Wars, ect. Our determination within the team has influenced motivation on each individual member.

With your sponsorship, this experience of ours will be very worthwhile to endure. Your sponsorship will positively give us a higher degree in the import scene, while at the same time, it will give you the recognition that your company thrives to obtain. REDZONE is determined to grow into a success!
